**07. NOVEMBER 2018**

**08:30 AM - 14:00 PM**

**KONZIL CONSTANCE**

## We introduce you to social jobs from three exciting sectors:

### Healthcare

Jobs in Healthcare are versatile. In addition to nursing, there are exciting jobs like medical assistant and midwifery, podiatrist, physiotherapist and many more.

### Nursing

People are not only cared for in hospitals, but also in residential homes or at home. Comprehensive care is important for everyone – from children to elderly people.

### Education

Educators need many abilities – it reaches from creativity up to social competence – for their jobs in kindergarten, social work and other areas.

Inform yourself & check out what is hiding behind the jobs. Your questions will be answered because everyone is there: trainees, teachers, instructors.

On grounds of the legibility there is no use of male and female language at once. All designations apply for both genders.

**07. NOVEMBER 2018**  
08:30 AM – 14:00 PM  
KONZIL CONSTANCE

At the educational fair MARS, the focus is not on the companies themselves, but on job profiles. Education and information are the main targets of MARS, to inspire young people for the various job profiles. From the whole county of Constance, there will be educational companies and employers, schools and facilities for advanced education out of the sectors healthcare, nursing and education. In this way, all visitors get a comprehensive and realistic impression of the various jobs.

Students have the opportunity to ask their questions and adjust their own perception to reality. Every visitor can practice and experience what it means to accompany people out of every age group – from kindergarten to retirement homes.
