Mission future

Take off in your
apprenticeship!

Healthcare

Nursing

Education

13. NOVEMBER 2019

08:30 AM - 02:00 PM

KONZIL CONSTANCE

We introduce you to social jobs from three exciting sectors:

Healthcare

Workplaces such as hospitals, medical offices or labs offer interesting and diversified jobs in healthcare. In addition to biomedicine, there are exciting jobs as medical-technical laboratory assistant, occupational therapist, midwifery, physiotherapist and many more.

Nursing

People are not only cared for at hospitals, but also nursing homes or at home. Comprehensive care is important for everyone – from children to elderly people.

Education

Social workers, Kindergarten educators and many other professionals need a variety of key skills to successfully perform in their areas. Those competencies vary from general social competences to vibrant creativity.

For organizational reasons, larger groups and school classes have to register online at www.messemars.de/besucher

13. NOVEMBER 2019

08:30 AM – 02:00 PM

KONZIL CONSTANCE

At the educational fair MARS, the focus is not on the companies, but on the applicants themselves. Education and information are the main targets of MARS to inspire young people coming from all walks of life from all over Konstanz, there will be educational companies and employers, schools and facilities for advanced education out of the sectors healthcare, nursing and education. Our objective is to offer all visitors with a comprehensive and realistic impression of the various jobs.

Students have the opportunity to ask questions as well as giving their own inputs. Every visitor can practice and experience what it means to provide assistance to different cohorts, from infants to the elderly – from kindergarten to retirement homes.
